

Hearing Aid Compatibility Information

Current hearing aid compatible handset models offered:

- SYNC: 2ADLJSYNC
 - HAC Rating: M4 & T3
 - <https://fccid.io/2ADLJSYNC>
 - The Vortex SYNC has a rating of 7, which is EXCELLENT and HIGHLY USEABLE.

Current non-hearing aid compatible handset models offered:

- N/A

Ratings Explanation: Cell phones that work well with hearing aids will have a microphone (M) rating of M3 or M4 but can range from M1 to M4. This means the cell phone will work with the hearing aid in the microphone position with a M3 or M4 rating. A higher M rating will provide the best experience.

If you have a hearing aid or cochlear implant with a telecoil, look for a phone that has a telecoil (T) rating of T3 or T4 but can range from T1 to T4. A higher T rating will provide the best experience.

For more information regarding hearing aid-compatible and non-hearing aid-compatible handset models, please visit the Global Accessibility Reporting Initiative web site (<http://gari.info/>).
